INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and City Council
City of Bronte
P.O. Box 370
Bronte, TX 76933-0370

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Bronte, Texas, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Bronte, Texas, as of September 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note K., to the financial statements, in 2015 the City adopted new accounting guidance prescribed by GASB Statement No. 68 for its pension plan - a nontraditional, joint contributory, hybrid defined benefit pension plan. Because GASB Statement No. 68 implements new measurement criteria and reporting provisions, significant information has been added to the government-wide statements. The statement of net position discloses the City's net pension liability and some deferred resource outflows and deferred resource inflows related to the City's pension plan. The statement of activities discloses the adjustment to the City's beginning net position. Our opinion is not modified with respect to the matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and net pension liability and contributions information for the TMRS retirement plan on pages 3 through 7, 41, and 42 through 43, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Bronte's basic financial statements. The other supplementary information and the statistical information listed in the table of contents are presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 3, 2016, on our consideration of the City of Bronte's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Bronte's internal control over financial reporting and compliance.

Eckert & Company, LLP

February 3, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Bronte's financial performance provides an overview of the City's financial activities for the year ended September 30, 2015. It should be read in conjunction with the City's basic financial statements and independent auditor's report.

Financial Highlights

The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the end of the current year by \$2,934,973 (net position). Of this amount, \$971,826 (unrestricted) may be used to meet the City's ongoing obligations.

The City's total net position increased by \$98,069 or 3%. This amount consists of a \$166,191 increase attributable to current year operations and a \$68,122 decrease attributable to prior period adjustments described in Note IV., E. to the financial statements. The City's statement of activities shows total revenues of \$968,812 and total expenses of \$802,621.

The total fund balance of the General Fund is \$370,321 which is an increase of \$16,900 or 5% compared to the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the current year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future years.

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Overview of the Financial Statements - Continued

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public health, public safety, streets, economic development, and grant activities. The business-type activities of the City include a water and sewer system and trash collection.

The component unit column of the government-wide financial statements presents the financial information of the Bronte Economic Development Corporation which is a component unit of the City. The component unit is reported in a separate column to emphasize that it is legally separate from the City.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the current year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is considered to be a major fund. Data from other governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided to demonstrate compliance with the budget.

Proprietary Funds - Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer system and trash collection.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Government-Wide Financial Analysis

Net Position - A summary of the City's net position is presented below:

	NET POSITION					
	Governmental Activities		Business-Type Activities		Totals	
	September 30,					
	2015	2014	2015	2014	2015	2014
Current and Other Assets	\$ 402,373	\$ 423,120	\$ 1,118,428	\$ 1,012,935	\$ 1,520,801	\$ 1,436,055
Capital Assets	58,927	65,539	2,021,096	2,076,710	2,080,023	2,142,249
Total Assets	\$ 461,300	\$ 488,659	\$ 3,139,524	\$ 3,089,645	\$ 3,600,824	\$ 3,578,304
Deferred Outflows of Resources	\$ 3,854	\$ 0	\$ 6,370	\$ 0	\$ 10,224	\$ 0
Long-Term Liabilities Outstanding	\$ 32,352	\$ 0	\$ 464,781	\$ 471,062	\$ 497,133	\$ 471,062
Other Liabilities	15,712	61,409	158,865	208,929	174,577	270,338
Total Liabilities	\$ 48,064	\$ 61,409	\$ 623,646	\$ 679,991	\$ 671,710	\$ 741,400
Deferred Inflows of Resources	\$ 1,645	\$ 0	\$ 2,720	\$ 0	\$ 4,365	\$ 0
Net Position						
Net Investment in Capital Assets	\$ 58,927	\$ 65,539	\$ 1,904,220	\$ 1,900,112	\$ 1,963,147	\$ 1,965,651
Unrestricted	356,518	361,711	615,308	509,542	971,826	871,253
Total Net Position	\$ 415,445	\$ 427,250	\$ 2,519,528	\$ 2,409,654	\$ 2,934,973	\$ 2,836,904

A large portion of the City's net position (\$1,963,147) reflects the City's investment in capital assets, less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide services to citizens within the jurisdiction of the City; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The remaining balance of unrestricted net position (\$971,826) may be used to meet the City's ongoing obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Government-Wide Financial Analysis - Continued

Governmental Activities - Governmental activities increased the City's net position by \$11,062 and \$7,098 for the fiscal years ended September 30, 2015 and 2014, respectively. Business-type activities increased the City's net position by \$155,129 and \$250,087 for the fiscal years ended September 30, 2015 and 2014, respectively. Key elements of these increases are as follows:

CHANGES IN NET POSITION

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Financial Analysis of the City's Funds

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. The unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the current year.

The City's governmental funds reported combined ending fund balances \$378,123, an increase of \$24,702 or 7% in comparison with the prior year. These fund balances are reported in various governmental funds as follows:

General Fund \$370,321. All of this balance is unassigned.

Other Funds \$7,802. All of this balance is assigned for special programs.

Proprietary Funds - The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The City's proprietary funds reported unrestricted net position of \$615,308, an increase of \$105,766 or 21% in comparison with the prior year.

General Fund Budget

The original budget for the General Fund was \$272,103, and the final amended budget was \$336,577 which represents a \$64,474 increase in appropriations. A significant variance between the original budget and the amended budget was caused by an increase of \$37,538 in Streets.

The City has adopted a budget for the General Fund in the amount of \$375,032 for the fiscal year 2016, which is an increase of \$38,455 from the fiscal year 2015.

Capital Assets and Debt

Capital Assets - Financial statement footnote III., C. discloses the City's capital asset activity for the year ended September 30, 2015.

Long-Term Debt - Financial statement footnote III., E. discloses the City's debt activity for the year ended September 30, 2015.

Requests for Information

The financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Crystal Blevins, City Secretary, City of Bronte, P.O. Box 370, Bronte, TX 76933-0370.

CITY OF BRONTE
Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position
September 30, 2015

Total Fund Balances - Governmental Funds	\$ 378,123
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. The net effect of including the beginning balances for capital assets (net of depreciation) is to increase (decrease) net position.	65,539
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(6,612)
Property taxes are recognized when they become available in the fund financial statements but are shown as revenues when they are levied in the government-wide financial statements. The net effect of including unavailable revenue from property taxes as revenue is to increase (decrease) net position.	8,538
Included in the items related to debt is the recognition of the City's proportionate share of the net pension liability required by GASB 68, a Deferred Resource Inflow related to TMRS, and a Deferred Resource Outflow related to TMRS. The net effect of these adjustments is to increase (decrease) net position.	<u>(30,143)</u>
Net Position of Governmental Activities	<u><u>\$ 415,445</u></u>

CITY OF BRONTE
 Reconciliation of the Governmental Funds Statement of Revenues, Expenditures,
 and Changes in Fund Balances to the Statement of Activities
 Year Ended September 30, 2015

Total Net Change in Fund Balances - Governmental Funds	\$ 16,751
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(6,612)
Property taxes are recognized when they become available in the fund financial statements but are shown as revenues when they are levied in the government-wide financial statements. The net effect of including unavailable revenue from property taxes as revenue is to increase (decrease) net position.	248
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of December 31, 2014, caused the change in ending net position to increase. The City recorded its proportionate share of the pension expense during the measurement period as part of the net pension liability. The amounts expensed for fiscal year 2015 were for pension expense from TMRS data and the amounts de-expended for the net deferred resource inflow recognized by TMRS in the measurement period. This caused a net decrease in the change in net position. The impact of all of these is to increase (decrease) net position.	<u>675</u>
Change in Net Position of Governmental Activities	<u><u>\$ 11,062</u></u>

CITY OF BRONTE
Notes to the Financial Statements
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Bronte, Texas, prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America applicable to state and local governments. Additionally the City complies with the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The City is governed by an elected mayor and a five-member council which is elected by the public. The accompanying financial statements present the government and its component unit, an entity for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the primary government.

The City reports the following component unit -

Bronte Economic Development Corporations - The Boards of Directors are appointed by the City Council. The Corporations are fiscally dependent on the City because they are funded by sales taxes which are collected by the City and their operating budgets are approved by the City Council.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges for services - payments from parties that purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment of the City and (2) grants and contributions - payments from organizations outside the City that are restricted to meeting the operational or capital requirements of a particular function or segment of the City. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Interfund activities between governmental funds and proprietary funds appear as due to/due froms on the governmental funds balance sheet and on the proprietary funds statement of net position and as other resources and other uses on the governmental funds statement of revenues, expenditures, and changes in fund balance and on the proprietary funds statement of revenues, expenses, and changes in fund net position. All interfund transactions between governmental funds are eliminated in the government-wide financial statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide statement of net position.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City had no other governmental funds in the current year.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues generally result from providing services in connection with a proprietary fund's ongoing operations. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received they are recorded as unearned revenue until related and authorized expenditures have been made.

The proprietary funds and fiduciary funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the period in which they are incurred and become measurable.

The government reports the following major governmental fund:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary fund:

The Utility Fund accounts for the operation of the water and sewer systems for the City.

Additionally, the government reports the following fund type:

The Private Purpose Trust Fund accounts for resources used to provide for benefits under the Firemen's Relief and Retirement Fund requirements.

D. Cash and Cash Equivalents - Proprietary Funds

For purposes of the statement of cash flows for proprietary fund types, the City considers cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition to be cash equivalents.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

E. Interfund Receivables and Payables

Activity between individual funds may result in amounts owed between funds which are classified as Due To and From Other Funds. Other than amounts due to or from fiduciary funds and proprietary funds these balances are eliminated in the statement of net position.

F. Receivables and Payables

Receivables are stated at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The City believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year.

G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

H. Capital Assets

Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	15-40
System	40
Equipment	5-10

I. Restricted Assets

Restricted assets held by the Enterprise Fund consist of cash and temporary investments, which have been restricted by the Texas Water Development Board for authorized projects held in the Water Fund.

J. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's fiduciary net position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Compensated Absences

The City's policy does not permit employees to accumulate unused vacation and sick leave to be paid to the employees upon separation from service.

M. Net Position on the Statement of Net Position

Net position on the statement of net position includes the following:

Net Investment in Capital Assets - This component of net position represents the difference between capital assets net of accumulated depreciation and the outstanding balance of debt, excluding any unspent debt proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets

Unrestricted - This is the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources that is not reported as Net Investment in Capital Assets.

N. Fund Balances/Equity

In the fund financial statements, governmental funds report the following classification of fund balance:

Assigned - Amounts that are intended for a specific purpose but do not meet the definition of restricted or committed. The intent can be expressed by the Board of Trustees or by a Board designee.

Unassigned - Amounts that have not been assigned to other funds or restricted, committed, or assigned to a specific purpose within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council has provided otherwise in its commitment or assignment actions.

Unrestricted net position for proprietary funds represents the net position available for future operations.

O. Property Tax Revenues

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all property located in the City in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

O. Property Tax Revenues - Continued

The City recognizes as tax revenues those taxes that are measurable and available. Measurable means the amount can be determined, and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within the current period.

Allowances for uncollectibles are based upon historical experience. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

P. Interfund Transfers

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget

Formal budgetary accounting is employed for all required governmental fund types and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles.

The official budget is prepared for adoption for required governmental fund types prior to the beginning of each fiscal year. The budget is formally adopted by the City Council at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except Special Revenue Funds which adopt project-length budgets. Each annual budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles. The budget was amended by the City Council. Such amendments are reflected in the official minutes of the City Council.

III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the City to

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

A. Deposits and Investments - Continued

invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the City has adopted a deposit and investment policy. That policy addresses the following risks:

Custodial Credit Risk - Deposits and Investments: In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits and investments in certificates of deposit may not be returned to it. The City's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state and local governments by pledging securities in excess of the highest cash balance of the government. The City is not exposed to custodial credit risk for its deposits and investments in certificates of deposit since they are covered by depository insurance and pledged securities held by a third party in the City's name.

Concentration of Credit Risk: The investment policy of the City contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. At September 30, 2015, all of the City's investments are in certificates of deposit with its depository bank. The City is not exposed to this risk as described in the preceding paragraph.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At September 30, 2015, the City was not significantly exposed to credit risk.

Interest Rate Risk: Not applicable

Foreign Currency Risk: Not applicable

The carrying amount of the City's cash and temporary investments at September 30, 2015, approximates fair value and consisted of the following:

Unrestricted	
Cash in Bank	\$ 736,978
Certificates of Deposit	278,654
	<u>\$ 1,015,632</u>
Restricted	
Cash in Bank	\$ 409,148
Certificates of Deposit	27,361
	<u>\$ 436,509</u>

D. Deferred Outflows and Inflows of Resources

The financial statements report separate sections for deferred outflows and inflows of resources. Deferred outflows represent an acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows represent an acquisition of fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

The City has the following items that qualify for reporting in these categories:

Deferred Outflows (Statement of Net Position)

City's proportionate share of Texas Municipal Retirement System (TMRS) deferred outflows as detailed in financial statement footnote IV., A.

Deferred Inflows (Statement of Net Position)

City's proportionate share of Texas Municipal Retirement System (TMRS) deferred inflows as detailed in financial statement footnote IV., A.

Deferred Inflows (Balance Sheet - Governmental Funds)

Unavailable revenue - property taxes.

E. Long-Term Debt

The following is a summary of changes in long-term debt for the year ended September 30, 2015:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Business-Type Activities

III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS - Continued

E. Long-Term Debt - Continued

The City's outstanding bond issue is as follows:

City of Bronte, Texas, Combination Tax and Utility System Revenues Certificates of Obligation, Series 2013. Issued for constructing, acquiring, purchasing, renovating, enlarging, equipping, and improving Waterworks System properties and facilities, and related fees in the original amount of \$345,000. Due in annual payments from August 15, 2013, to August 15, 2024, with interest rates of .15% to 2.08%.

The net revenues of the Waterworks and Sewer System are pledged to secure this debt. In accordance with bond covenants, the City must maintain a certificate fund bank account, to which all net revenues are to be credited immediately upon receipt. The City must transfer and deposit into this account each month an amount of not less than 1/12th of the annual Debt Service Requirements on the Certificates until the amount accumulated and maintained in the account equals the amount required for the full payment of the Debt Service Requirements on the Certificates then outstanding. At September 30, 2014, the amount available in this account was \$324,737.

\$ 315,000

The City's outstanding note payable is as follows:

Note of \$539,216 obtained from Upper Colorado River Authority to finance additions and improvements to the water plant. Due to be liquidated on April 1, 2018, payable from the Enterprise Funds. As of September 2010, the interest rate was renegotiated to 4.25%, payable in monthly installments of \$2,878 including interest. This note was paid off on November 4, 2015.

\$ 96,313

The combined annual debt service requirements are as follows:

Year Ending September 30,	Certificates of Obligation		Note Payable		Total
	Principal	Interest	Principal	Interest	
2016	\$ 35,000	\$ 4,270	\$ 31,038	\$ 3,493	\$ 73,801
2017	35,000	4,102	32,383	2,148	73,633
2018	35,000	3,847	32,892	738	72,477
2019	35,000	3,518	0	0	38,518
2020	35,000	3,108	0	0	38,108
2021-2024	140,000	6,814	0	0	146,814
Totals	<u>\$ 315,000</u>	<u>\$ 25,659</u>	<u>\$ 96,313</u>	<u>\$ 6,379</u>	<u>\$ 443,351</u>

CITY OF BRONTE
Notes to the Financial Statements
September 30, 2015

IV. OTHER INFORMATION

A. Defined Benefit Pension Plan

Plan Description - The City participates in a nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmr.com.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided - TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Pension Trust Fund - The plan provisions that have been adopted by the City are within the options available in the TMRS Act. Employees can retire at age 60 and above with 5 or more years of service, or with 25 years of service regardless of age. Employees are vested after 5 years of service, but their accumulated deposits and interest must remain in the plan to receive any employer-financed benefits. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's personal account balance and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TMRS Act. Members may choose to receive their retirement benefit in one of seven payment options.

Employees Covered by Benefit Terms

At the December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	1
Inactive Employees Entitled to but not yet Receiving Benefits	0
Active Employers	<u>3</u>
Total	<u><u>4</u></u>

Contributions - The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

IV. OTHER INFORMATION - Continued

A. Defined Benefit Pension Plan - Continued

Employees for the City were required to contribute 6% of their annual gross earnings during the fiscal year. The contribution rates for the City were 8.79% and 8.85% in calendar years 2014 and 2015, respectively. The City's contributions to TMRS for the year ended September 31, 2015, were \$10,141, and were equal to the required contributions.

Net Pension Liability - The City's Net Pension Liability (NPL) was measured as of December 31, 2014, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Inflation	3% Per Year
Overall Payroll Growth	3% Per Year
Investment Rate of Return	7%, Net of Pension Plan Investment Expense, Including Inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. Based on the size of the city rates are multiplied by a factor of 89%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2014, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2006 through December 31, 2009, first used in the December 31, 2010 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation.

The long-term expected rate of return on pension plan investments is 7.0%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

IV. OTHER INFORMATION - Continued

A. Defined Benefit Pension Plan - Continued

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.50%	4.80%
International Equity	17.50%	6.05%
Core Fixed Income	30.00%	1.50%
Non-Core Fixed Income	10.00%	3.50%
Real Return	5.00%	1.75%
Real Estate	10.00%	5.25%
Absolute Return	5.00%	4.25%
Private Equity	<u>5.00%</u>	8.50%
Total	<u>100.0%</u>	

CITY OF BRONTE

IV. OTHER INFORMATION - Continued

A. Defined Benefit Pension Plan - Continued

Discount Rate

The discount rate used to measure the Total Pension Liability was 7%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

<u>Changes in the Net Pension Liability</u>	<u>Increase (Decrease)</u>		
	<u>Total Pension Liability</u> (a)	<u>Plan Fiduciary Net Position</u> (b)	<u>Net Pension Liability</u> (a) - (b)
Balance at December 31, 2013	<u>\$ 337,195</u>	<u>\$ 247,636</u>	<u>\$ 89,559</u>

IV. OTHER INFORMATION - Continued

A. Defined Benefit Pension Plan - Continued

Deferred outflows of resources of \$7,477 related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2015. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending September 30,</u>	<u>Pension Expense Amount</u>
2015	\$ 4
2016	4
2017	4
2018	2
2019	(629)
Thereafter	(1,220)

At September 30, 2015, the City reported deferred resource outflows and deferred resource inflows for the TMRS pension plan as follows:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Total Net Amounts as of December 31, 2014 Measurement Date	\$ 2,530	\$ 4,365
Contributions Made Subsequent to the Measurement Date	<u>7,694</u>	<u>-</u>
Reported by City as of September 30, 2015	<u>\$ 10,224</u>	<u>\$ 4,365</u>

B. Other Postemployment Benefits

Plan Description - The City participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement Systems (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance to provide group-term life insurance coverage to current employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings for the 12-month period preceding the month of death).

Funding Policy - The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

IV. OTHER INFORMATION - Continued

B. Other Postemployment Benefits - Continued

The City's contributions to the TMRS SDBF for the years ended September 30, 2015, 2014, and 2013, were \$286, \$268, and \$534, respectively, which equaled the required contributions each year.

C. Workers' Compensation Insurance

The City has entered into an interlocal participation agreement with the Texas Municipal League Workers' Compensation Joint Insurance Fund (the Fund). The Fund was created to provide workers' compensation benefits for its members pursuant to the provisions of Article 8309h, Texas Revised Civil Statutes Annotated. The Fund provides for the self-insurance of certain defined risks jointly among the Fund members. The Fund is required to provide stop-loss coverage; however, the amount of this coverage may be adjusted at the discretion of the Fund's Board of Trustees. The City's participation in the Fund is on a nonassessable basis. The City has no joint and several liability other than the maximum annual contribution required to be paid into the Fund. The City made contributions to the Fund based upon its standard annual premium which was computed using the Texas State Board of Insurance workers' compensation rates and adjusted by the City's experience modifier. Contributions are adjusted annually based upon the City's experience modifier; however, contributions are subject to adjustments on an interim basis if such adjustments are the result of changes mandated by state law.

D. Property and Liability Coverage

The City has entered into an interlocal participation agreement with the Texas Municipal League Joint Self-Insurance Fund (the Fund). The Fund was created to provide liability and property coverage to its members pursuant to the provisions of Article 4413 (32i), Texas Revised Civil Statutes Annotated. The Fund provides for the self-insurance of certain defined risks jointly among the Fund members. The Fund provides stop-loss coverage at the discretion of the Fund's Board of Trustees. The City made contributions to the Fund based upon a rating system approved by the Fund's Board of Trustees. Contributions are adjusted annually based upon the City's loss experience. The City's participation in the Fund provides coverage for property, automobile liability, general liability, errors and omissions liability, and automobile medical payments. The participation agreement is continuous but the agreement may be terminated by either party by giving a written sixty-day notice of intent to terminate.

E. Adjustments to Fund Balance/Net Position

During fiscal year 2015, the City adopted GASB Statement No. 68, "*Accounting and Financial Reporting for Pensions.*" With GASB 68, the City must assume its proportionate share of the net pension liability of the Texas Municipal Retirement System. Adoption of GASB 68 required a prior period adjustment to report the effect of GASB 68 retroactively. The amount of the prior period adjustment is a decrease in net position of \$81,754, which includes \$30,818 in the governmental funds and \$50,936 in the Enterprise Funds.

The fund balance of the Special Revenue Fund - Cemetery Association was increased by \$7,951 to record an additional bank account which was not disclosed in prior years.

CITY OF BRONTE
Notes to the Financial Statements - Continued
September 30, 2015

IV. OTHER INFORMATION - Continued

E. Adjustments to Fund Balance/Net Position - Continued

The net position of the Enterprise Funds was decreased by \$45,255 to record adjustments as follows:

GASB 68	\$ (50,936)
Record Bank Account not Previously Disclosed	5,457
Prior Year's Miscellaneous Adjustments	<u>224</u>
Total	<u><u>\$ (45,255)</u></u>

The net position of the government-wide statements decreased by \$68,122 to reflect these prior period adjustments:

GASB 68	\$ (30,818)
Special Revenue Fund	7,951
Enterprise Funds	<u>(45,255)</u>
Total	<u><u>\$ (68,122)</u></u>

F. Subsequent Events

A note payable to the Upper Colorado River Authority in the amount of \$96,313 was paid off on November 4, 2015.

The City's management has evaluated subsequent events through February 3, 2016, the date which the financial statements were available for issue.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Mayor and City Council
City of Bronte
P.O. Box 370
Bronte, TX 76933-0370

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Bronte, Texas, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated February 3, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Bronte's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Bronte's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Bronte's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. The reference numbers of the findings are: 2015-001 and 2015-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Bronte's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Findings

The City of Bronte's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements, and accordingly we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Eckert & Company, LLP

February 3, 2016

CITY OF BRONTE
Schedule of Findings and Responses
Year Ended September 30, 2015

Findings -

Reference Number: 2015-001

The limited number of employees which the City has in the office prohibits the City from establishing a proper system for the segregation of duties. Segregation of duties is a key element of internal control.

Reference Number: 2015-002

Criteria:

Monthly reconciliation of the accounts receivable subsidiary ledger to the general ledger is a common internal control procedure which helps to identify errors and irregularities in the accounts receivable subsidiary ledger and any adjustments which may be needed.

Condition:

Reconciliations of the accounts receivable subsidiary ledger to the general ledger were not prepared on a timely basis.

Cause:

Management was not performing procedures to ensure that balances per the general ledger related to accounts receivable were accurate and reconciled to the accounts receivable subsidiary ledger.

Effect:

The accounts receivable subsidiary ledger did not tie to the general ledger.

Auditors' Recommendation:

Procedures should be established to ensure that accounts receivable balances are reconciled between the general ledger and the subsidiary on a consistent and timely basis. All differences and the reason for such differences should be investigated and resolved as soon as possible. These procedures will assist the City in establishing reliable internal control for the billing and collection of accounts receivable and revenues.

Responses -

Reference Number: 2015-001

The City recognizes that there is a limited segregation of duties. However, the current employee structure and budget constraints make it impossible to have a complete segregation of duties. The City feels that the controls which they have in place reduce the risks associated with a lack of segregation of duties to a level which is acceptable to the City.

Reference Number: 2015-002

The City will establish procedures to ensure that accounts receivable balances are reconciled between the general ledger and the subsidiary on a consistent and timely basis.

CITY OF BRONTE
Schedule of Status of Prior Findings
Year Ended September 30, 2015

Findings -

Reference Number: 2014-001

The limited number of employees which the City has in the office prohibits the City from establishing a proper system for the segregation of duties. Segregation of duties is a key element of internal control.

Reference Number: 2014-002

Expenditures exceeded appropriations in three programs in the General Fund.

Responses -

Reference Number: 2014-001

A complete segregation of duties cannot be obtained within the current employee structure and budget constraints. The City feels that the controls which are in place will reduce the risks associated with a lack of segregation of duties to an acceptable level. The City feels that it is not economically feasible to obtain sufficient personnel in order to obtain a complete segregation of duties, and the City does not plan to take any further action on this matter.

Reference Number: 2014-002

This condition did not exist in the current year.
